— COMPANY OVERVIEW

## GREENPLANT AGRO SOLUTION LTD

Greenplant Agro Solution Ltd is an integrated agro-industrial company engaged in NPK fertilizer manufacturing, large-scale farming, and the international export of agricultural products and fertilizers.

Our operations cover the complete agricultural value chain: Production → Farming → Processing → Export. This integrated model eliminates supply chain gaps, reduces cost, and ensures consistent product quality across every batch and shipment.

We operate at industrial scale, supplying farmers, distributors, and international buyers across Nigeria, West Africa, and global markets.

GREENPLANT AGRO SOLUTION LTD  
INTEGRATED AGRO-INDUSTRIAL OPERATIONS — NIGERIA

— BUSINESS MODEL

## OUR INTEGRATED VALUE CHAIN

We control each stage of the agricultural value chain under one operational structure — ensuring consistency from input sourcing to final export.

#### STAGE 01

### FERTILIZER PRODUCTION

We manufacture NPK fertilizers using modern blending technology. Product composition is lab-verified for accuracy and compliance with SON/NAFDAC standards before bagging and dispatch.

#### STAGE 02

### AGRICULTURAL PRODUCTION

Our farms produce sesame, hibiscus, ginger, grains, and livestock products using mechanized systems across thousands of hectares. Output is processed and prepared for domestic supply and export.

#### STAGE 03

### PROCESSING & PACKAGING

All products are processed, quality-checked, and packaged to buyer specifications — 50kg standard bags, bulk bags, or container-loaded bulk — with full labeling and trade documentation.

#### VISION

## OUR VISION

*"To be recognized as Nigeria's leading integrated agro-industrial company — manufacturing quality fertilizers, operating productive farms, and supplying global markets with consistent, export-ready agricultural products."*

#### MISSION

## OUR MISSION

*"To manufacture high-quality NPK fertilizers, operate productive farming operations, and deliver certified agricultural products to domestic and international markets through efficient and reliable supply chains."*

#### CORE VALUES

## OPERATING PRINCIPLES

These are not aspirations — they are the operational standards we apply in every manufacturing batch, every farm cycle, and every export shipment.

### QUALITY

Every production batch is lab-tested. Every shipment is inspected. We do not compromise on product specification.

### INTEGRITY

Accurate weights, honest documentation, transparent pricing. Our clients know exactly what they are receiving.

### RELIABILITY

We meet delivery timelines. Consistent production capacity means we can commit to supply agreements at scale.

### SUSTAINABILITY

We apply responsible farming and manufacturing practices that protect soil quality and reduce environmental impact.

### COMPLIANCE

Full regulatory compliance — SON, NAFDAC, phytosanitary — on every product line and export transaction.

"Our operations are governed by structured ESG and HSE frameworks aligned with international standards, ensuring responsible production, environmental protection, and operational integrity across all three divisions — fertilizer manufacturing, commercial farming, and international export."

#### ESG FRAMEWORK

# ENVIRONMENTAL, SOCIAL & GOVERNANCE

Greenplant Agro Solution Ltd integrates ESG principles across all operations. Our framework reflects the standards expected by institutional investors, multilateral financiers, and global trade partners.

<b>FRAMEWORK</b> <b>IFC Performance Standards</b>	<b>SCOPE</b> <b>All Three Divisions</b>
<b>REPORTING CYCLE</b> <b>Annual Review</b>	<b>OVERSIGHT LEVEL</b> <b>Board-Level Governance</b>

#### ENVIRONMENT

01

### ENVIRONMENTAL STEWARDSHIP

- PRODUCTION EFFICIENCY**  
 Blending operations engineered to minimise raw material losses and energy consumption per tonne of output.
- SOIL HEALTH MANAGEMENT**  
 Crop rotation protocols and nutrient management plans applied across all farming sites to preserve soil integrity.
- WATER RESOURCE CONTROL**  
 Calibrated irrigation systems with drainage

#### SOCIAL

02

### SOCIAL RESPONSIBILITY

- LABOUR & EMPLOYMENT**  
 Direct employment across manufacturing, farming, and logistics. Wages and conditions compliant with Nigerian Labour Act.
- FARMER & SUPPLY CHAIN SUPPORT**  
 Certified inputs distributed via authorised dealer networks. Agronomic advisory provided to smallholder farmers.
- FOOD SECURITY CONTRIBUTION**  
 High-yield crop production and certified

#### GOVERNANCE

03

### CORPORATE GOVERNANCE

- REGULATORY COMPLIANCE**  
 SON, NAFDAC, NEPC, and NAQS requirements maintained current. All certifications verifiable upon request.
- STRUCTURED MANAGEMENT OVERSIGHT**  
 Board-level review of operations and compliance across all three divisions on a defined reporting cycle.
- OPERATIONAL RISK MANAGEMENT**  
 Risk registers maintained per division.

and runoff management protocols in place at all farm levels.

• **WASTE MANAGEMENT SYSTEM**

Production by-products classified and handled through controlled disposal. Packaging waste reduction enforced.

ALIGNED WITH **IFC PS3** **NESREA**

fertilizer supply directly support national agricultural output capacity.

• **COMMUNITY ENGAGEMENT**

Local procurement priority and open stakeholder communication maintained at all operating and farming sites.

ALIGNED WITH **IFC PS2** **ILO STANDARDS**

Production, supply chain, and export risks formally assessed and mitigated.

• **ETHICAL BUSINESS CONDUCT**

Anti-corruption policy and conflict of interest declarations applied to all procurement and trade transactions.

ALIGNED WITH **OECD GUIDELINES** **WB PROCUREMENT**

ACTIVE REGULATORY CERTIFICATIONS

"Operational integrity is maintained through structured Health, Safety, and Process Safety Management (HSE/PSM) systems – implemented and monitored across all manufacturing, farming, and logistics facilities."

HSE & PSM

HEALTH, SAFETY & PROCESS INTEGRITY

- ISO 45001 Occupational Safety
• Nigeria OSH Act Compliant
• IFC PS1 & PS2 Aligned
• OSHA PSM 29 CFR 1910.119

"Our operations are governed by structured HSE and Process Safety Management (PSM) systems aligned with industrial safety standards and regulatory frameworks – with defined protocols for hazard control, equipment integrity, and incident prevention."

HSE and PSM procedures are documented, enforced, and subject to annual management review. Compliance is verified through internal audits and third-party inspection where applicable. All personnel receive mandatory induction and role-specific training before deployment to operational areas.

## PERSONNEL & WORKPLACE SAFETY

- 01 SOP ENFORCEMENT**  
Standard Operating Procedures applied to all production, handling, and maintenance tasks. Deviation triggers mandatory review.
- 02 PPE COMPLIANCE SYSTEM**  
Mandatory PPE enforced in all production and chemical-handling zones. Monitored by designated HSE supervisors.
- 03 TRAINING & INDUCTION**  
Annual HSE recertification for all operational personnel. Site induction mandatory before deployment to any facility.
- 04 INCIDENT REPORTING & RCA**  
Near-miss and incident reporting system active across all sites. Root cause analysis conducted for every recorded event.

REF. **NIGERIA OSH 2004** **ISO 45001**

## PROCESS SAFETY MANAGEMENT

- 01 PRODUCTION PARAMETER MONITORING**  
Continuous logging of blending ratios, batch weights, and nutrient composition. Exceedances trigger corrective action.
- 02 MECHANICAL INTEGRITY PROGRAMME**  
Preventive maintenance schedules per asset. Records kept for all blending, conveying, and bagging equipment.
- 03 HAZOP & RISK ASSESSMENT**  
Hazard reviews conducted on all process changes. Chemical hazard assessments current for all on-site raw materials.
- 04 CHEMICAL HANDLING & MSDS CONTROL**  
MSDS maintained for all chemical inputs. Segregated storage, labelling, and spill-control procedures enforced.

REF. **OSHA PSM 1910** **IFC PS1**

## ENVIRONMENTAL CONTROL SYSTEMS

- 01 WASTE STREAM CLASSIFICATION**  
Waste classified, segregated, and disposed through approved licensed contractors. Zero uncontrolled discharge.
- 02 EMISSIONS & DUST SUPPRESSION**  
Active dust suppression at all blending and bagging stations. Air quality monitored against NESREA permissible limits.
- 03 STATUTORY ENVIRONMENTAL COMPLIANCE**  
All sites maintained in compliance with NESREA regulations and applicable state environmental authority requirements.
- 04 ANNUAL IMPACT REDUCTION REVIEW**  
Formal review conducted annually. Targets set for water, energy, and material intensity reduction per unit of output.

REF. **NESREA ACT** **IFC PS3**

REGULATORY STANDARDS  
MAINTAINED CONCURRENTLY

### CERTIFICATIONS & COMPLIANCE

# REGULATORY COMPLIANCE

Our products and operations meet national and international regulatory requirements. All certifications are available for review upon request.

#### SON CERTIFIED

Standards Organisation of Nigeria product certification for all NPK fertilizer grades.

#### NAFDAC COMPLIANT

National Agency for Food and Drug Administration and Control compliance for agricultural products.

#### NEPC REGISTERED

Nigerian Export Promotion Council registration for all export activities and international trade.

#### PHYTOSANITARY

Phytosanitary certification for all agricultural commodity exports per international trade standards.

# COMMUNITY IMPACT

*Supporting Sustainable Communities Beyond Agriculture*

Through the **GreenPlant Humanitarian Foundation**, the company supports selected initiatives focused on education, community development, women support, and sustainable social impact programs within local communities.

Our approach reflects GreenPlant's commitment to responsible growth and long-term community development alongside agro-industrial operations.

## OUR PARTNERS & AFFILIATIONS

# MANAGEMENT TEAM

Our leadership brings expertise in industrial manufacturing, agronomy, and international trade.

**AHMAD AHMAD**

DIRECTOR FINANCE & ACCOUNT

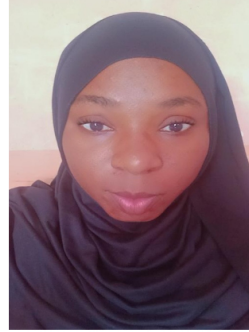

Oversees financial strategy, compliance, and reporting across all operations, ensuring efficient resource management and sustainable growth.

**KHALIL ABBA AHMAD**

DIRECTOR ENGINEERING

Leads fertilizer production, plant operations, and technical systems, ensuring efficiency, quality control, and optimal production capacity.

**SUWAIBA GARBA**

DIRECTOR HR & ADMIN

Manages workforce operations, administration, and organizational systems to support productivity across all business units.

**DALHATU MUHAMMAMED**

Handles export logistics, documentation, and international client coordination, ensuring smooth and compliant global trade operations.

## WORK WITH GREENPLANT

We supply distributors, large-scale farmers, and international buyers.

Reach out to our sales team to discuss your requirements.
